

		COUNTING						
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6		
Verbally count beyond 20, recognising the pattern of the counting system. Subitise (recognise quantities without counting) up to 5.	count to and across 100, forwards and backwards, beginning with 0 or 1, or from any given number			count backwards through zero to include negative numbers	interpret negative numbers in context, count forwards and backwards with positive and negative whole numbers, including through zero	use negative numbers in context, and calculate intervals across zero		
	count, read and write numbers to 100 in numerals; count in multiples of twos, fives and tens	count in steps of 2, 3, and 5 from 0, and in tens from any number, forward or backward	count from 0 in multiples of 4, 8, 50 and 100;	count in multiples of 6, 7, 9, 25 and 1 000	count forwards or backwards in steps of powers of 10 for any given number up to 1 000 000			
	given a number, identify one more and one less		find 10 or 100 more or less than a given number	find 1 000 more or less than a given number				
			CON	MPARING NUMBERS				
	use the language of: equal to, more than, less than (fewer), most, least	compare and order numbers from 0 up to 100; use <, > and = signs	compare and order	order and compare numbers beyond 1 000	read, write, order and compare	read, write, order and compare		

Compare numbers. Understand the 'one more than/one less than' relationship between consecutive numbers. Compare quantities up to10 in different contexts, recognising when one quantity is greater than, less than or the same as the other quantity.			numbers up to 1 000 DENTIFYING, REPRES	compare numbers with the same number of decimal places up to two decimal places (copied from Fractions)	numbers to at least 1 000 000 and determine the value of each digit (appears also in Reading and Writing Numbers)	numbers up to 10 000 000 and determine the value of each digit (appears also in Reading and Writing Numbers)
Understand the 'one more than/one less than' relationship between consecutive numbers. Explore the composition of numbers to 10. Have a deep understanding of numbers to 10, including the composition of each number.	identify and represent numbers using objects and pictorial representations including the number line	identify, represent and estimate numbers using different	identify, represent and estimate numbers using different representations	identify, represent and estimate numbers using different representations		

			READING AND WRITING	NUMBERS (including Ror	man Numerals)	
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Link the number symbol (numeral) with its cardinal number value.	read and write numbers from 1 to 20 in numerals and words.	read and write numbers to at least 100 in numerals and in words	read and write numbers up to 1 000 in numerals and in words	read Roman numerals	read, write, order and compare numbers to at least 1 000 000 and determine the value of each digit (appears also in Comparing Numbers)	read, write, order and compare numbers up to 10 000 000 and determine the value of
			tell and write the time from an analogue clock, including using Roman numerals from I to XII, and 12-hour and 24hour clocks (copied from Measurement)	to 100 (I to C) and know that over time, the numeral system changed to include the concept of zero and place value.	read Roman numerals to 1000 (M) and recognise years written in Roman numerals.	each digit (appears also in Understanding Place Value)
		recognise the place value of each digit in a two-digit number (tens, ones)	recognise the place value of each digit in a threedigit number (hundreds, tens, ones)	recognise the place value of each digit in a four-digit number (thousands, hundreds, tens, and ones)	read, write, order and compare numbers to at least 1 000 000 and determine the value of each digit (appears also in Reading and Writing Numbers) recognise and use thousandths and relate them to tenths, hundredths and decimal	read, write, order and compare numbers up to 10 000 000 and determine the value of each digit (appears also in Reading and Writing Numbers)

		find the effect of dividing a one- or two-digit number by 10 and 100, identifying the value of the digits in the answer as units, tenths and hundredths (copied from Fractions)	equivalents (copied from Fractions)	identify the value of each digit to three decimal places and multiply and divide numbers by 10, 100 and 1 000 where the answers are up to three decimal places (copied from
				Fractions)

ROUNDING								
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6			
			round any number to the nearest 10, 100 or 1 000	round any number up to 1 000 000 to the nearest 10, 100, 1 000, 10 000 and 100 000	round any whole number to a required degree of accuracy			
			round decimals with one decimal place to the nearest whole number (copied from Fractions)	round decimals with two decimal places to the nearest whole number and to one decimal place (copied from Fractions)	solve problems which require answers to be rounded to specified degrees of accuracy (copied from Fractions)			
		PROBLEM	I SOLVING					

use place value and number facts to solve problems	involving these ideas.	'	solve number problems and practical problems that involve all of the above	solve number and practical problems that involve all of the above
--	------------------------	---	---	---

	NUMBER BONDS							
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6		
Automatically recall (without reference to rhymes, counting or other aids) number bonds up to 5 (including subtraction facts) and some number bonds to 10, including double facts.	represent and use number bonds and related subtraction facts within 20	recall and use addition and subtraction facts to 20 fluently, and derive and use related facts up to 100						
Have a deep understanding of numbers to 10, including the composition of each number.								
Subitise (recognise quantities without counting) up to 5.								
			MENTAL CALCULA	ATION				

Develop fast recognition of up to 3 objects, without having to count them individually ('subitising'). Know that the last number reached when counting a small set of objects tells you how many there are in total ('cardinal principle'). Show 'finger numbers' up to 5. Subitise. Automatically recall (without reference to rhymes, counting or other aids) number bonds up to 5 (including subtraction facts) and some number bonds to 10, including double facts. Have a deep understanding of numbers to 10, including the composition of each number.	add and subtract onedigit and two-digit numbers to 20, including zero	add and subtract numbers using concrete objects, pictorial representations, and mentally, including: * a two-digit number and ones * a two-digit number and tens * two two-digit numbers * adding three one- digit numbers	add and subtract numbers mentally, including: * a three-digit number and ones * a three-digit number and tens * a three-digit number and hundreds	add and subtract numbers mentally with increasingly large numbers	perform mental calculations, including with mixed operations and large numbers
understanding of numbers to 10, including the composition of each					
Subitise (recognise quantities without counting) up to 5.					

read, write and interpret mathematical statements involving addition (+), subtraction (-) and equals (=) signs (appears also in Written Methods)	show that addition of two numbers can be done in any order (commutative) and subtraction of one number from another cannot		use their knowledge of the order of operations to carry out calculations involving the four
` · · ·			involving the four operations

			WRITTEI	N METHODS		
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
	read, write and interpret mathematical statements involving addition (+), subtraction (-) and equals (=) signs (appears also in Mental Calculation)		add and subtract numbers with up to three digits, using formal written methods of columnar addition and subtraction	add and subtract numbers with up to 4 digits using the formal written methods of columnar addition and subtraction where appropriate	add and subtract whole numbers with more than 4 digits, including using formal written methods (columnar addition and subtraction)	
			INVERSE OPERAT	IONS, ESTIMATING AN	ID CHECKING	
			ANSWERS			
Develop fast recognition of up to 3 objects, without having to count them individually ('subitising').		recognise and use the inverse relationship between addition and subtraction and use	estimate the answer to a calculation and use inverse operations to	estimate and use inverse operations to check answers to a calculation	use rounding to check answers to calculations and determine, in the	use estimation to check answers to calculations and determine, in the

of numbers to 10.	calculations and		levels of accuracy	levels of accuracy.
	solve missing			
	number problems.			

			PROBLE	M SOLVING		
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Solve real world mathematical problems with numbers up to 5. Begin to describe a sequence of events, real or fictional, using words such as 'first', 'then' Explore and represent patterns within numbers up to 10, including evens and odds, double facts and how quantities can be distributed evenly.	solve one-step problems that involve addition and subtraction, using concrete objects and pictorial representations, and missing number problems such as 7 = □ - 9	solve problems with addition and subtraction: * using concrete objects and pictorial representations, including those involving numbers, quantities and measures * applying their increasing knowledge of mental and written methods solve simple problems in a practical context involving addition and subtraction of money of the same unit, including giving change (copied from Measurement)	solve problems, including missing number problems, using number facts, place value, and more complex addition and subtraction	solve addition and subtraction two-step problems in contexts, deciding which operations and methods to use and why	solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why	solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why Solve problems involving addition, subtraction, multiplication and division

EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Explore the composition of numbers to 10. Explore and represent patterns within numbers up to 10, including evens	and Place Value)	count in steps of 2, 3, and 5 from 0, and in tens from any number, forward or backward (copied from Number and Place Value)	count from 0 in multiples of 4, 8, 50 and 100 (copied from Number and Place Value)	count in multiples of 6, 7, 9, 25 and 1 000 (copied from Number and Place Value)	count forwards or backwards in steps of powers of 10 for any given number up to 1 000 000 (copied from Number and Place Value)	
and odds, double facts and how quantities can be distributed evenly.		recall and use multiplication and division facts for the 2, 5 and 10 multiplication tables, including recognising odd and even numbers	recall and use multiplication and division facts for the 3, 4 and 8 multiplication tables	recall multiplication and division facts for multiplication tables up to 12 × 12		
			MENTAL CALO	CULATION		
Explore the composition of numbers to 10. Explore and represent patterns within numbers up to 10, including evens and odds, double facts and how quantities can be distributed evenly.			write and calculate mathematical statements for multiplication and division using the multiplication tables that they know, including for two-digit numbers times onedigit numbers, using mental and progressing to formal written methods (appears also in Written Methods)	use place value, known and derived facts to multiply and divide mentally, including: multiplying by 0 and 1; dividing by 1; multiplying together three numbers	multiply and divide numbers mentally drawing upon known facts	perform mental calculations, including with mixed operations and large numbers

	show that multiplication of two numbers can be done in any order (commutative) and division of one number by another cannot		factor pairs and commutativity in	multiply and divide whole numbers and those involving decimals by 10, 100 and 1000	associate a fraction with division and calculate decimal fraction equivalents (e.g. 0.375) for a simple fraction (e.g. ³ / ₈) (copied from Fractions)
--	---	--	-----------------------------------	--	--

	WRITTEN CALCULATION									
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6					
	calculate mathematical statements for multiplication and division within the multiplication tables and write them using the multiplication (×), division (÷) and equals (=) signs	write and calculate mathematical statements for multiplication and division using the multiplication tables that they know, including for two-digit numbers times one-digit numbers, using mental and progressing to formal written methods (appears also in Mental Methods)	multiply two-digit and three-digit numbers by a onedigit number using formal written layout	multiply numbers up to 4 digits by a one- or two-digit number using a formal written method, including long multiplication for two- digit numbers	multiply multi-digit numbers up to 4 digits by a two-digit whole number using the formal written method of long multiplication					

		divide numbers up to 4 digits by a one-digit number using the formal written method of short division and interpret remainders appropriately for the context	divide numbers up to 4-digits by a two-digit whole number using the formal written method of short division where appropriate for the context divide numbers up to 4 digits by a two-digit whole number using the formal written method of long division, and interpret remainders as whole number remainders, fractions, or by rounding, as appropriate for the context
			use written division methods in cases where the answer has up to two decimal places (copied from Fractions (including decimals))

arrays with the support of the teacher	facts, including problems in contexts	correspondence problems in which n objects are connected to m objects	problems and harder correspondence problems such as n objects are connected to m objects	solve problems involving addition, subtraction, multiplication and division and a combination of these, including understanding the meaning of the equals sign	
				solve problems involving multiplication and division, including scaling by simple fractions and problems involving simple rates	solve problems involving similar shapes where the scale factor is known or can be found (copied from Ratio and Proportion)

	COUNTING IN FRACTIONAL STEPS							
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6			
	Pupils should count in fractions up to 10, starting from any number and using the 1/2 and 2/4 equivalence on the number line (Non Statutory Guidance)	count up and down in tenths	count up and down in hundredths					
		RECOGNISIN	G FRACTIONS					
recognise, find and name a half as one of two equal parts of an object, shape or quantity	recognise, find, name and 1 1 2 write fractions / , / , / 3 4 4 and / of a length, shape,	recognise, find and write fractions of a discrete set of objects: unit fractions and non-unit fractions with small denominators	recognise that hundredths arise when dividing an object by one hundred and dividing tenths by ten	recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents (appears also in Equivalence)				

recognise, find and name a quarter as one of four equal parts of an object, shape or quantity	set of objects or quantity	recognise that tenths arise from dividing an object into 10 equal parts and in dividing one – digit numbers or quantities by 10. recognise and use fractions as numbers: unit fractions with small denominators			
		COMPARING	FRACTIONS		
		compare and order unit fractions, and fractions with the same denominators		compare and order fractions whose denominators are all multiples of the same number	compare and order fractions, including fractions >1

	COMPARING DECIMALS									
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6					
			compare numbers with the same number of decimal places up to two decimal places	read, write, order and compare numbers with up to three decimal places	identify the value of each digit in numbers given to three decimal places					
			ROUNDING INCLUDING DE	CIMALS						
	round decimals with one decimal places decimal place to the nearest whole number and to one whole number whole number and to one whole number and to one decimal place specified degrees of accuracy									
		EQUIVALENCE	(INCLUDING FRACTIONS, DECI	MALS AND PERCENTAGES)						

write simple fractions e.g. / of 6 = 3 and recognise the equivalence of / and 1/ .	recognise and show, using diagrams, equivalent fractions with small denominators	recognise and show, using diagrams, families of common equivalent fractions	identify, name and write equivalent fractions of a given fraction, represented visually, including tenths and hundredths	use common factors to simplify fractions; use common multiples to express fractions in the same denomination
-		recognise and write decimal equivalents of any number of tenths or hundredths	read and write decimal numbers as fractions (e.g. 0.71 = /) 100 recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents	associate a fraction with division and calculate decimal fraction equivalents (e.g. 0.375) for a simple fraction 3 (e.g. /)
		recognise and write decimal equivalents to /;/;/	recognise the per cent symbol (%) and understand that per cent relates to "number of parts per hundred", and write percentages as a fraction with denominator 100 as a decimal fraction	recall and use equivalences between simple fractions, decimals and percentages, including in different contexts.

	ADDITION AND SUBTRACTION OF FRACTIONS								
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6				
		add and subtract fractions with the same denominator within one whole (e.g. $/ + / = /$)	add and subtract fractions with the same denominator	add and subtract fractions with the same denominator and multiples of the same number	add and subtract fractions with different denominators and mixed numbers, using the concept of equivalent fractions				

	7 7 7		recognise mixed numbers and improper fractions and convert from one form to the other and write mathematical statements > 1 as a mixed number (e.g. / + / = / 5 5 5 5 1 = 1 /)	
	MULTIPLICATION AND	DIVISION OF FRACTIONS		
			multiply proper fractions and mixed numbers by whole numbers, supported by materials and diagrams	multiply simple pairs of proper fractions, writing the answer in its simplest $ \begin{array}{ccc} & & & & & & & & & \\ & & & & & & & & & \\ & & & & $
				divide proper fractions by 1 whole numbers (e.g. / ÷ 3 2 =/)

MULTIPLICATION AND DIVISION OF DECIMALS							
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6		

	find the effect of dividing a one- or two-digit number by 10 and 100, identifying the value of the digits in the answer as ones, tenths and hundredths	multiply one-digit numbers with up to two decimal places by whole numbers multiply and divide numbers by 10, 100 and 1000 where the answers are up to three decimal places
		identify the value of each digit to three decimal places and multiply and divide numbers by 10, 100 and 1000 where the answers are up to three decimal places
		associate a fraction with division and calculate decimal fraction equivalents (e.g. 0.375) for a simple fraction (e.g. ³ / ₈)
	SOLVING	use written division methods in cases where the answer has up to two decimal places

Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
		solve problems that involve all of the above	solve problems involving increasingly harder fractions to calculate quantities, and fractions to divide quantities, including non-unit fractions where the answer is a whole number		
			solve simple measure and money problems involving fractions and decimals to two decimal places.	solve problems which require knowing percentage and decimal equivalents of / , / , / , 2 4 5 5 5 5 4 denominator of a multiple of 10 or 25.	

Ratio and proportion: Stateme	Ratio and proportion: Statements only appear in Year 6 but should be connected to previous learning, particularly fractions and multiplication and division						
			Year 6				
			solve problems involving				
			the relative sizes of two				
			quantities where missing				
			values can be found by				
			using integer				
			multiplication and				
			division facts				
			solve problems involving				
			the calculation of				

		percentages [for
		example, of measures,
		and such as 15% of 360]
		and the use of
		percentages for
		comparison
		solve problems involving
		similar shapes where the
		scale factor is known or
		can be found
		solve problems involving
		unequal sharing and
		grouping using
		knowledge of fractions
		and multiples.

Algebra: EQUATIONS							
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6		
solve one-step problems that involve addition and subtraction, using concrete objects and pictorial representations, and missing number problems such as $7 = \Box - 9$ (copied from Addition and	recognise and use the inverse relationship between addition and subtraction and use this to check calculations and missing number problems. (copied from Addition and Subtraction)	solve problems, including missing number problems, using number facts, place value, and more complex addition and subtraction. (copied from Addition and Subtraction)		use the properties of rectangles to deduce related facts and find missing lengths and angles (copied from Geometry: Properties of Shapes)	express missing number problems algebraically		

Subtraction)		solve problems, including missing number problems, involving multiplication and division, including integer scaling (copied from Multiplication and Division)		
	recall and use addition and subtraction facts to 20 fluently, and derive and use related facts up to 100 (copied from Addition and Subtraction)			find pairs of numbers that satisfy number sentences involving two unknowns
represent and use number bonds and related subtraction facts within 20 (copied from Addition and Subtraction)				enumerate all possibilities of combinations of two variables

	Algebra: FORMULAE						
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6		
					use simple formulae		

		SEQU	Perimeter can be expressed algebraically as 2(a + b) where a and b are the dimensions in the same unit. (Copied from NSG measurement)	recognise when it is possible to use formulae for area and volume of shapes (copied from Measurement)
sequence events in chronological order using language such as: before and after, next, first, today, yesterday, tomorrow, morning, afternoon and evening (copied from Measurement)	compare and sequence intervals of time (copied from Measurement) order and arrange combinations of mathematical objects in patterns (copied from Geometry: position and direction)			generate and describe linear number sequences

Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
compare, describe and solve practical problems for: * lengths and heights [e.g. long/short, longer/shorter, tall/short, double/half] * mass/weight [e.g. heavy/light, heavier than, lighter than] * capacity and volume [e.g. full/empty, more than, less than, half, half full, quarter] * time [e.g. quicker, slower, earlier, later]	compare and order lengths, mass, volume/capacity and record the results using >, < and =		estimate, compare and calculate different measures, including money in pounds and pence (also included in Measuring)	calculate and compare the area of squares and rectangles including using standard units, square centimetres (cm) and square metres (m) and estimate the area of irregular shapes (also included in measuring) estimate volume (e.g. 3 using 1 cm blocks to build cubes and cuboids) and capacity (e.g. using water)	calculate, estimate and compare volume of cubes and cuboids using standard units, including centimetre 3 cubed (cm) and cubic 3 metres (m), and extending to other units such as mm and km.
sequence events in chronological order using language [e.g. before and after, next, first, today, yesterday, tomorrow, morning, afternoon and evening]	compare and sequence intervals of time	compare durations of events, for example to calculate the time taken by particular events or tasks			
		estimate and read time with increasing accuracy to the nearest minute; record and compare time in terms of seconds, minutes, hours and o'clock; use vocabulary such as a.m./p.m., morning, afternoon, noon and midnight (appears also in Telling the Time)			

	Measurement: MEASURING and CALCULATING								
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6				
measure and begin to record the following: * lengths and heights * mass/weight * capacity and volume * time (hours, minutes, seconds)	choose and use appropriate standard units to estimate and measure length/height in any direction (m/cm); mass (kg/g); temperature (°C); capacity (litres/ml) to the nearest appropriate unit, using rulers, scales, thermometers and measuring vessels	measure, compare, add and subtract: lengths (m/cm/mm); mass (kg/g); volume/capacity (I/mI)	estimate, compare and calculate different measures, including money in pounds and pence (appears also in Comparing)	use all four operations to solve problems involving measure (e.g. length, mass, volume, money) using decimal notation including scaling.	solve problems involving the calculation and conversion of units of measure, using decimal notation up to three decimal places where appropriate (appears also in Converting)				
		measure the perimeter of simple 2-D shapes	measure and calculate the perimeter of a rectilinear figure (including squares) in centimetres and metres	measure and calculate the perimeter of composite rectilinear shapes in centimetres and metres	recognise that shapes with the same areas can have different perimeters and vice versa				

	MEASURING and CALCULATING								
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6				
recognise and know the value of different denominations of coins and notes	amounts to make a particular value	add and subtract amounts of money to give change, using both £ and p in practical contexts							

solve simple problems in a practical context involving addition and subtraction of money of the same unit, including giving change			
	find the area of rectilinear shapes by counting	calculate and compare the area of squares and rectangles including using standard units,	calculate the area of parallelograms and triangles
	squares	centimetres (cm) and 2 square metres (m) and estimate the area of irregular shapes	calculate, estimate and compare volume of cubes and cuboids using standard units, including cubic 3 centimetres (cm) and cubic metres
		recognise and use square numbers and cube numbers, and	(m), and extending to other units [e.g. 3 3 mm and km].
		the notation for squared () and 3 cubed () (copied from Multiplication and Division)	recognise when it is possible to use formulae for area and volume of shapes

TELLING THE TIME							
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6		
tell the time to the hour and half past the hour and draw the hands on a clock face to show these times.	tell and write the time to five minutes, including quarter past/to the hour and draw the hands on a clock face to show these	tell and write the time from an analogue clock, including using Roman numerals from I to XII, and 12-hour and 24-hour	read, write and convert time between analogue and digital 12 and 24-hour clocks (appears also in Converting)				
	times.	clocks					

recognise and use language relating to dates, including days of the week, weeks, months and years	know the number of minutes in an hour and the number of hours in a day. (appears also in Converting)	estimate and read time with increasing accuracy to the nearest minute; record and compare time in terms of seconds, minutes, hours and o'clock; use vocabulary such as a.m./p.m., morning, afternoon, noon and midnight (appears also in Comparing and Estimating)			
			solve problems involving converting from hours to minutes; minutes to seconds; years to months; weeks to days (appears also in Converting)	solve problems involving converting between units of time	

	Measurement: CONVERTING								
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6				
	know the number of minutes in an hour and the number of hours in a day. (appears also in Telling the Time)	know the number of seconds in a minute and the number of days in each month, year and leap year	convert between different units of measure (e.g. kilometre to metre; hour to minute)	convert between different units of metric measure (e.g. kilometre and metre; centimetre and metre; centimetre and millimetre; gram and kilogram; litre and millilitre)	use, read, write and convert between standard units, converting measurements of length, mass, volume and time from a smaller unit of measure to a larger unit, and vice versa, using decimal notation to up to three decimal places				

	read, write and convert time between analogue and digital 12 and 24-ho clocks (appears also in Converting		solve problems involving the calculation and conversion of units of measure, using decimal notation up to three decimal places where appropriate (appears also in Measuring and Calculating)
	solve problems involving converting from hours to minutes; minutes to seconds; years to month weeks to days (appears also in Telling the Time)	equivalences between metric units and common	convert between miles and kilometres

	Geometry: IDENTIFYING SHAPES AND THIER PROPERTIES								
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6				
recognise and name common 2-D and 3-D shapes, including: * 2-D shapes [e.g. rectangles (including squares), circles and	identify and describe the properties of 2-D shapes, including the number of sides and line symmetry in a vertical line		identify lines of symmetry in 2-D shapes presented in different orientations	identify 3-D shapes, including cubes and other cuboids, from 2-D representations	recognise, describe and build simple 3-D shapes, including making nets (appears also in Drawing and Constructing)				

triangles] * 3-D shapes [e.g. cuboids (including cubes), pyramids and spheres].	identify and describe the properties of 3-D shapes, including the number of edges, vertices and faces identify 2-D shapes on the surface of 3-D shapes, [for example, a circle on a cylinder and a triangle on a pyramid]				illustrate and name parts of circles, including radius, diameter and circumference and know that the diameter is twice the radius
		DRAWING AND	CONSTRUCTING		
		draw 2-D shapes and make 3-D shapes using modelling materials; recognise 3-D shapes in different orientations and describe them	complete a simple symmetric figure with respect to a specific line of symmetry	draw given angles, and measure them in degrees ()	draw 2-D shapes using given dimensions and angles recognise, describe and build simple 3-D shapes, including making nets (appears also in Identifying Shapes and Their Properties)

	Geometry: COMPARING AND CLASSIFYING								
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6				
	compare and sort common 2-D and 3- D shapes and everyday objects		compare and classify geometric shapes, including quadrilaterals and triangles, based on their properties and sizes	use the properties of rectangles to deduce related facts and find missing lengths and angles	compare and classify geometric shapes based on their properties and sizes and find unknown angles in any triangles, quadrilaterals, and regular polygons				
				distinguish between regular and irregular polygons based on reasoning about equal sides and angles					
			ANGLES						
		recognise angles as a property of shape or a description of a turn		know angles are measured in degrees: estimate and compare acute, obtuse and reflex angles					
		identify right angles, recognise that two right angles make a halfturn, three make three quarters of a turn and four a complete turn; identify whether angles are greater than or less than a right angle	identify acute and obtuse angles and compare and order angles up to two right angles by size	identify: * angles at a point and one o whole turn (total 360) * angles at a point on a straight o line and ½ a turn (total 180) * other multiples of 90	recognise angles where they meet at a point, are on a straight line, or are vertically opposite, and find missing angles				

	identify horizontal and vertical		
	lines and pairs of perpendicular		
	and parallel lines		

Geometry: POSITION, DIRECTION AND MOVEMENT									
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6				
describe position, direction and movement, including half, quarter and three-quarter turns.	use mathematical vocabulary to describe position, direction and movement including movement in a straight line and distinguishing between rotation as a turn and in terms of right angles for quarter, half and three-quarter turns (clockwise and anticlockwise)		describe positions on a 2- D grid as coordinates in the first quadrant	identify, describe and represent the position of a shape following a reflection or translation, using the appropriate language, and know that the shape has not changed	describe positions on the full coordinate grid (all four quadrants)				
			describe movements between positions as translations of a given unit to the left/right and up/down		draw and translate simple shapes on the coordinate plane, and reflect them in the axes.				
			plot specified points and draw sides to complete a given polygon						
PATTERN									
	order and arrange combinations of mathematical objects in patterns and sequences								

Statistics: INTERPRETING, CONSTRUCTING AND PRESENTING DATA								
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6			
	interpret and construct simple pictograms, tally charts, block diagrams and simple tables	interpret and present data using bar charts, pictograms and tables	interpret and present discrete and continuous data using appropriate graphical methods, including bar charts and time graphs	complete, read and interpret information in tables, including timetables	interpret and construct pie charts and line graphs and use these to solve problems			
	ask and answer simple questions by counting the number of objects in each category and sorting the categories by quantity							
	ask and answer questions about totalling and comparing categorical data							
SOLVING PROBLEMS								
		solve one-step and twostep questions [e.g. 'How many more?' and 'How many fewer?'] using information presented in scaled bar charts and pictograms and tables.	solve comparison, sum and difference problems using information presented in bar charts, pictograms, tables and other graphs.	solve comparison, sum and difference problems using information presented in a line graph	calculate and interpret the mean as an average
